Laser Labels

Laser labels are stocked in two convenient sizes. Both are supplied on an 8 1/2” x 11” carrier sheet, containing either 40 or 44 labels. Each sheet is piggyback style with a permanent adhesive.

PBXL
Top Label Size: 5/6” x 1 2/3”
Label per sheet: 44 (4.4M per pack)
Sheets per pack: 100
Available colors:
PBXL-02 Yellow
PBXL-05 Orange
PBXL-06 Blue

PBXL-40
Top Label Size: 7/8” x 2”
Label per sheet: 40 (10M per pack)
Sheets per pack: 250
Available colors:
PBXL-40-02 Yellow
PBXL-40-05 Orange
PBXL-40-06 Blue
Thermal Labels

Thermal Piggyback Labels are stocked for use with most major thermal printer brands. When ordering, please use the basic catalog number followed by the number of the color desired; i.e., green TMT labels would be ordered with catalog number TMT-03.

Available Colors

- Yellow
- Green
- Orange
- Blue
- Violet

Available Colors

*Also available in thermal transfer. Call for additional information.

IF YOU DO NOT SEE WHAT YOU NEED please call us for assistance. We stock many more miscellaneous central service labels or we can help you design a custom label to suit your specifications.
Standard Data Processing Labels

These standard data processing labels are compatible with your computerized patient charge systems. They are available in the following styles. When ordering please use the basic catalog number followed by the number of color desired; i.e., three across double die-cut style labels in blue would be ordered with catalog number DPCX-3-06.

Double Die-Cut Style

Features an individual die-cut bottom label. Produced on smudgeproof piggyback stock with a permanent adhesive.

<table>
<thead>
<tr>
<th>Label Style</th>
<th>Label Size</th>

<td>5/6&quot; X 1 7/10&quot;</td>
<td>7&quot;</td>
</tr>
<tr>
<td>DPCX-4</td>
<td>5/6&quot; X 1 7/10&quot;</td>
<td>9 1/2&quot;</td>
</tr>
<tr>
<td>DPCX-5</td>
<td>3/4&quot; X 1 3/4&quot;</td>
<td>11&quot;</td>
</tr>
</tbody>
</table>

Strip Style

Features a single horizontal bottom label for easy removal of 4 or 5 labels at a time. Produced on smudgeproof piggyback stock with a permanent adhesive.

<table>
<thead>
<tr>
<th>Label Style</th>

<td>11&quot;</td>
</tr>
</tbody>
</table>
Patient Charge / Inventory Control Labels

Pull Tab Style
Features a handy, non-adhesive backed pull tab on top label for easy removal of individual and strip labels. Produced on flexible smudgeproof piggyback stock with a permanent adhesive.

DPPT - 5   Label Size 15/16 “ X 1 1/2 “ Carrier width 9 3/8 ”

DPPT - 5S  Label Size 15/16 “ X 8 17/32 “ Carrier width 9 3/8 ”

DPPT - 5CB  Label Size 2/3 “ X 1 7/10 “ Carrier width 10 1/16 ”

IF YOU DO NOT SEE what you need, please call us for assistance. Other styles and sizes are available.
Steam Autoclave Tape

Autoclave Tape is available in plain, color coded or printed styles. It may be written on with pen, pencil or marker. Use it to provide a visual indication that all the conditions necessary for steam sterilization have been met. Tape is supplied in 3/4 “ X 60 yard rolls. Stocked for immediate delivery.

INSTRUMENT MARKING TAPE

Use this durable vinyl tape to color code your surgical instruments for easy identification. It is resistant to chemicals and can be used in all types of autoclaves. The tape is 1/4 “ wide and supplied in 200 “ rolls. Stocked for immediate delivery. When ordering, please use the basic catalog number IMT-25 followed by the number of color desired; i.e., orange Instrument Marking Tape would be ordered with catalog number IMT-25-05.

**EMERGENCY GUIDE – HAZARD SIGNALS**

**HEALTH HAZARD**

4—**DANGER:** May be fatal on short exposure. Specialized protective equipment required.

3—**WARNING:** Corrosive or toxic. Avoid skin contact or inhalation.

2—**WARNING:** May be harmful if inhaled or absorbed.

1—**CAUTION:** May cause irritation

0—No unusual hazard

*Health hazard describes short term contact or inhalation hazard only

**INFLAMMABILITY — FIRE HAZARD**

4—**DANGER:** Flammable gas or extremely flammable liquid

3—**WARNING:** Flammable liquid Flash point below 100°F

2—**CAUTION:** Combustible liquid Flash point of 100°F to 200°F

1—Combustible if heated

0—Not combustible

**INSTABILITY HAZARD**

4—**DANGER:** Explosive material at room temperature

3—**DANGER:** May be explosive if shocked, heated under confinement, or mixed with water

2—**WARNING:** Unstable, or may react if mixed with water

1—**CAUTION:** May react if heated or mixed with water

0—Stable. Not reactive when mixed with water

LNT-500 TABLET FORM
Tablet Form consecutive numbers are printed on the highest quality pressure sensitive material. "Real stick" stock is especially suited for the tough demands to the busy medical laboratory, hospital or clinic. It holds tight on small or large diameter tubes and containers, without flagging, at temperatures from -50°C to 160°F. These 1/2” x 1 1/4” round-corner labels are supplied on sheets of up to 50 sheets per tablet. Each sheet can be printed with as many numbers as desired. Any color ink can be supplied upon request; however, black will be used unless otherwise specified. Colored backgrounds are also available at a small additional cost. (See price sheet) A standard No. prefix is used but you may specify - At No Additional Cost - any three character letter or number prefix or request labels without a prefix. Should your label require additional printing, this can be supplied at a small additional cost.

Tablet form numbers come standard with 50 sheets per tablet.

Standard Sizes
Available
1/2” x 1 1/4”
1/2” x 1 1/2”
1/4” x 1”

LNR-600; ROLL FORM
Roll Form consecutive numbers follow the same specifications as the tablet numbers except they are supplied in continuous rolls with vertical and horizontal perforations between each label. A standard 1” core is used with 3” available upon request.

Roll form numbers come standard with 1000 sets per roll.

Standard Sizes
Available
1/2” x 1 1/4”
1/2” x 1 1/2”
1/4” x 1”
Chemical Resistant Consecutive Numbers

Compatible with Xylene, Shamdon Americlear™, Surgiclear™ and others.

Labels can be supplied in rolls or tablet form for the same low price. Other sizes available at your request at little or no additional charge.

A Do-It-Yourself chemical resistant label kit is available so you can utilize your own thermal trasfer printer to print your Xylene on demand.

Part number LNX-1kit
Label Size: 7/8” x 7/8” 4 across
Labels Per Roll: 15,000
Core Size: 3”

Kit Includes: 3 rolls of Labels = 45,000
1 Xylene resistant Ribbon: 4.32” x 984’
*Please specify printer type when ordering.

Also Available
7/8” x 7/8”
15/16” x 15/16”
Pathology Specimen Identification

Made as simple as A, B, C, with tissue correlator labels.

CAT. NO. TCA
CASSETTE LABELS
Sturdy card stock preprinted with your accession numbers. Offered in tablets of up to 50 sheets with as many matching numbers as needed. Each sheet is divided into 1/4” x 1 1/2” labels by “easy tear perforations”. These labels fit perfectly into a standard tissue cassette. Each sheet also comes with free blanks for handwriting extra numbers as needed. The special ink used is unaffected by processing solvents and will not interfere with the tissue specimen. NOTE: Prefixes and suffixes aren’t any problem either just tell us your needs.

CAT. NO. TCB
PARAFFIN RING LABELS
The matching sequence of numbers to the cassette labels - to correlate the paraffin blocks. These are 1/4” x 1” labels and are printed on permanent pressure sensitive stock that adheres readily to paraffin rings. Also excellent for identifying gross specimen bottles. As with the cassette labels free blanks with each sheet.

CAT. NO. TCC ROUND CORNER
MICROSIDE LABELS
The finishing touch: matching numbers for the microslides are provided on easy-to-use round corner labels measuring 15/16” x 15/16”. The rounded corners give your laboratory that little extra: a better looking finished slide. Label material used not only stands up to years of filing and use but is the same thickness as a standard coverslip, making for easy stacking. For easy identification and that final touch of pride, your hospital or department name can be printed on each label for an additional 25%.

Specific hospital departments can be identified by ordering color background tints for 20% additional. Cytology technologist will find these labels ideal if ordered on standard (thin) stock.

*All sizes maybe customized at a small additional charge.
Piggyback Blood Bank Unit Set Consecutive Bar-Code

Adhesive complies with FDA Number 21.CFR 175.105.

Size 2 1/2” x 4 5/8”
15 Eye Readable
7 Bar-Code

MATTE FINISH

Litho removable stock will stick to almost any flat surface and comes off cleanly when needed. NOTE: Not recommended for smaller diameter curved surfaces.

Saturated stock is a latex-impregnated material with little or no memory. This characteristic makes it ideally suited for labeling any curved or tight cornered surfaces. Saturated labels will cling tightly to almost any surface yet come off cleanly with no adhesive transfer. An added plus: The smudge resistant surface gives clear imprints.
